DARIAH-EU

DARIAH Annual Event 2023
June 6 - 9 2023, Budapest, Hungary

National Laboratory for Digital Heritage

ELTE EÖTVÖS LORÁND TUDOMÁNYEGYETEM

Welcome All,

It has been my great pleasure to Chair the Programme Committee of the DARIAH Annual Event 2023 hosted by the Eötvös Loránd University, Faculty of Humanities, in Budapest. This year our Programme Committee includes a wide range of representatives from Research Infrastructures in the Humanities, Social Sciences and beyond, including CLARIN, DiSSCO, OPERAS and OpenAire, key organisations active in the cultural heritage ecosystem, including Europeana; TimeMachine; the International GLAM Labs Community; LIBER, the Association of European Research Libraries; CERL, the Consortium of European Research Libraries and the International Internet Preservation Consortium, IIPC, as well as our local hosts and the wider DARIAH ecosystem. With 125 submissions and over 250 registered participants so far, the theme of this year's conference "Cultural Heritage Data as Humanities Research Data?", seems to have sparked the interest of the community. On behalf of the Programme Committee and the DARIAH-EU Board of Directors, I would like to thank everyone who has contributed to this year's DARIAH Annual Event. We very much look forward to welcoming you to Budapest!

Sally Chambers,
director
DARIAH-EU

Dear All,

It is a great pleasure and honor for us to host one of the most important digital humanities events, the DARIAH ANNUAL EVENT, in Budapest this year. We have also cooperated with DARIAH in previous occasions, it is a great opportunity for us, as the only Hungarian member organization, to have the support of such an experienced and knowledgeable research alliance and infrastructure. Once again this year, this conference will be an extremely important event for humanists, culture, and technology, inspiring many people year after year. The Annual Event is an opportunity for researchers and institutions to engage and build connections with others from the field of Digital Humanities and serves as the initial step on the roadmap of the Hungarian full membership we work on for years now. We could not be more proud to be an ally in DARIAH's mission.

Gábor Palkó
project leader
DH–Lab

DARIAH ANNUAL EVENT: Collections in libraries, archives and museums have been at the heart of humanities research for centuries. However, with the current focus on data-driven research, data management plans and the research data lifecycle, in what ways do we need to think differently about cultural heritage collections as data?

Inspired by the proclamation "cultural heritage data is humanities research data", this year's DARIAH Annual Event will seek to explore what this means in practice. What does it mean for cultural heritage institutions to provide access to their 'collections as data'? Do we need to think of different workflows for digitised and born-digital datasets? Can we think of a humanities research data continuum? These are only some of the questions we aim to explore at the 2023 DARIAH Annual Event.

DARIAH is a European Research Infrastructure for the Arts and Humanities. Its mission is to empower scholarly communities with digital methods to create, connect and share knowledge about culture and society.
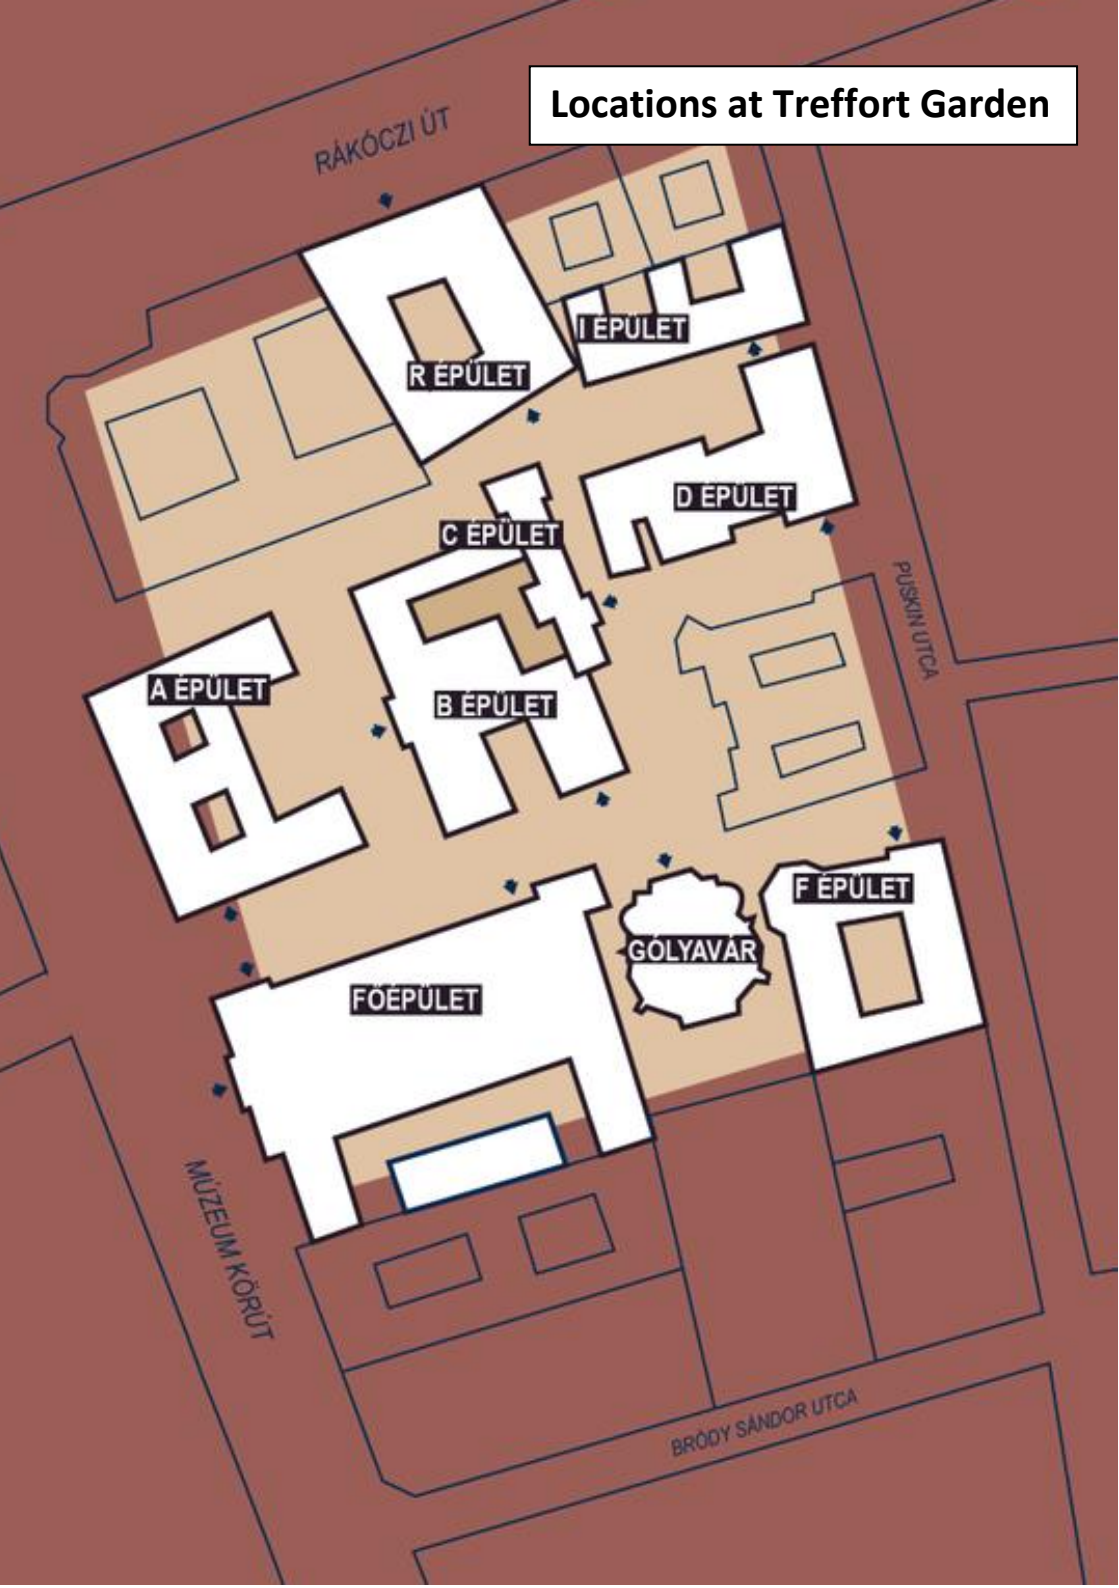

Venue: The location of DARIAH AE in 2023 is the Trefort garden campus, the home of the ELTE Faculty of Humanities. The campus is composed of several buildings designed by different architects and built in different architectural styles, such as Romanesque and Neo-Renaissance, making this

complex a unique experience for visitors. Trefort garden is easy to approach since it is located next to Astoria, a busy place in Budapest city center, providing many options for public transport.

DH-LAB: The Local organizer of the DARIAH AE is the Hungarian National Laboratory for Digital Heritage. Its aim is to develop, in an inter-institutional partnership, a methodology for the processing, research and education of national cultural heritage on the basis of ICTs, and to make it as widely available as possible in Hungary. It aims to achieve this by developing best practices for the market exploitation of the methodologies and tools developed and for the development of expertise.

Locations at Treffort Garden

Non-invasive technologies for discovering cultural heritage 3. From Music Information Retrieval to neuroscience of sound 4. Harmonising cultural heritage: vocabularies, data quality and Linked Open Data		
5:00pm - 6:30pm	**Poster Session** Location: Gólyavár - Foyer	**Working Group Meeting Theatralia** Location: ELTE DH lab, Campus Chair: **Anamarija Žugić Borić**, Institute of Ethnology and Folklore Research	
7:00pm - 10:00pm	**Social Dinner in Budapest** Details to follow, registration required.		

My Notes:

Date: Friday, 09/June/2023

9:00am - 9:30am	**Welcome coffee** Location: **Gólyavár - Foyer** A small coffee before we begin the day
9:30am - 11:00am	**Fostering and improving DH data reusability** Location: **Gólyavár - Main Auditorium** Chair: **Arnaud Gingold**, OpenEdition-AMU
11:00am - 11:30am	**Morning coffee break** Location: **Gólyavár - Foyer**
11:30am - 11:50am	**Open Access Book Bursary Prize** Location: **Gólyavár - Main Auditorium** Chair: **Erzsébet Tóth-Czifra**, DARIAH-EU Chair: **Toma Tasovac**, DARIAH-EU
11:50am - 12:50pm	**Keynote Panel. DARIAH Data Spaces Dialogue: Imagining experimental data spaces for analysis of cultural heritage using digital methods** Location: **Gólyavár - Main Auditorium** Chair: **Sally Chambers**, DARIAH-EU
12:50pm - 1:15pm	**Closing Remarks** Location: **Gólyavár - Main Auditorium** Chair: **Sally Chambers**, DARIAH-EU
1:15pm - 2:00pm	**Brown Bag Lunch (take away with you)** Location: **Gólyavár - Foyer**

My Notes:

Our main communication channel will be the official conference discord server during the conference. Please download the app and access the server via the QR code.

Public transport in Budapest may seem very complicated, but it is not. To help you plan your travel routes, we recommend the BudapestGo app.

Budapest is a beautiful city with many attractions and leisure activities to choose from. We recommend the Budapest Civitatis app, which offers a wide range of sightseeing activities – we especially recommend the free walking tours.
